

STRIKE AT M'NAMARA

BISBEE (A. United States Wheeler, s' Mexican in this city noon in Amer' a P. IRY)

Rich New Ore Body With Great Values was Opened up Tuesday Night in Part of Mine Previously Given up

One of the most important finds yet made in Tonopah was discovered Tuesday night in the MacNamara mine when they broke into a ledge in the sixty foot raise on the 200-foot level. The new strike is about 400 feet southwest of the station and is believed to be the continuation of the vein now being worked on the 200 and 275-foot levels. The extent of the ledge is not known at present but over seven feet of high grade has been exposed and no hanging wall yet in sight. The ore is highly sprinkled with sulphides and although no assay has yet been taken it is estimated that the values will reach the vicinity of \$75 a ton.

The region where the strike was made is in a territory hitherto believed to be barren and in which no prospecting had been done and should the new body prove to be the continuation of the vein already mentioned it is assured that the MacNamara has enough ore in sight to keep the mine running two years and ship fifty tons a day. And that is without working the lower levels, from which a great deal of ore now being milled is extracted.

Through the courtesy of Foreman Hoxie, representatives of the Bonanza were shown through the workings of the mine last night and to say that they were surprised at the showings would be putting it mildly. It can be safely stated that the MacNamara is destined to be one of the biggest producers in the state and it can safely be forecasted that a dividend will be paid before the termination of six months. Mr. Hoxie last evening started operations in a drift about thirty feet below the 200 level that was abandoned when the litigation suit was started two years ago. The entire drift, which is in about twenty feet, is in ore and raising will be commenced immediately.

On the 275 level stoping is being conducted on the big ledge and it is from there that most of the shipping ore has been extracted. The MacNamara is shipping fifty tons daily to the Montana mill and it is thought that before long this amount will be more than doubled.

BANKERS WANT A MONOPOLY

(By Associated Press.)
DENVER, Sept. 30.—The Bankers' association in its thirty-fourth annual convention here today received reports of officers and various committees and listened to several addresses. One of the most important committee reports was that of the committee on express companies. The committee told of efforts made to prevent the express companies from going further into the banking business, and to compel them to give up the money order business. The chairman of the committee explained that the interstate commerce commission will hear the complaint of the bankers October 15, at Washington. Officers elected today for next year were headed by W. F. Keyser of Sedalia, Missouri, as president.

CHOLERA REPORT NOT OPTIMISTIC

(By Associated Press.)
ST. PETERSBURG, Sept. 30.—During the twenty-four hours ended at noon 223 new cases and ninety-three deaths from cholera were reported today. The totals since the beginning of the epidemic are 5,655 cases, 2,168 deaths and 1661 recoveries.

WRECKED ON LAKE SUPERIOR.

MARQUETTE, Mich., Sept. 30.—Losing her bearings in the dense smoke and fog the steamer Neshota bound down with iron ore, ran ashore on Crisp Point, east Lake Superior, late Sunday and was broken to pieces by the gale raging today. She is a total loss. The crew was rescued by life savers.

BRYAN IS GETTING PEEVISH

(By Associated Press.)
CRESTON (Io.), Sept. 30.—William J. Bryan concluded a whirlwind speech-making tour of more than three weeks here tonight, where a big open air meeting was held. The Democratic candidate delivered fifteen speeches today. He devoted himself principally to discussion of the platforms of the two parties. He was unsparing in his attacks on the president and Taft and once again declared the president degraded the high office he held by participating in the campaign, instead of leaving Taft and himself to fight it out alone.

STOCK MARKET STILL INACTIVE

(By Associated Press.)
NEW YORK, Sept. 30.—The stock market today gave evidence that it has passed through all the usual counter fluctuations which follow the culmination of speculative movements of any duration. Prices were practically motionless and the semi-stagnation is generally attributed to the financial district to a desire to await the passing of the elections before taking any position in the market. Bonds were firm.

STOCK EXCHANGE SEATS GO DOWN

NEW YORK, Sept. 30.—A New York stock exchange seat was sold today for \$65,000, which is \$1000 less than the last previous sale, and about \$20,000 less than paid before last year's depression began.

MOBAN WON FROM HANLON

In one of the Best Fights at The Bay in a Long Time "Cute" Outclassed

SAN FRANCISCO, Sept. 30.—Owen Moran, the English feather-weight, was given the decision over Eddie Hanlon tonight after twenty rounds of fierce fighting, in which the Englishman had the best of it practically all the way through. The fight was fierce from start to finish, and aside from Moran's cleverness the gameness of Hanlon and his magnificent rally in the twentieth round, when it seemed that he was all but out, were great features of the fight. The opening rounds of the fight went as follows:

Round 1—Both rushed to a clinch and fought with great care, Hanlon putting right to the kidneys. Moran then shot two straight lefts to the face and at close range swung three rights around the kidneys. Moran shot right to the face and they clinched, landing with short-arm rights on the body. Owen jabbed twice with left to face and then in-fighting followed. Moran drove a wicked right to the stomach and they closed in. Hanlon swung right to the body, but Moran drove two hard rights to the jaw and followed it with a left to the body as the round ended. Moran's round, Moran landing oftener and cleaner.

Round 2—They were up quickly. A clinch opened the round and Moran was wild with right for the body. Moran was chain lightning. Hanlon shot a straight left to the nose and they went to close quarters, fighting hard. Moran struck rather low and Hanlon appealed to the referee. After Moran had sent right and left to the face Hanlon shot two rights to the stomach and Moran forced Hanlon against the ropes, landing right hard over the kidneys. Hanlon then drove a wicked right to the stomach and they exchanged hard lefts to the face as the bell rang. It was practically an even round.

Round 3—They clinch. Moran sent in three kidney blows and then drove his right over to ribs. Hanlon whipped his right to the face and Moran jabbed left to the face twice and a moment later shot his right to the body. Moran drove a fusillade of right and left swings to the jaw and head, Hanlon fighting back gamely and hard. They went to a clinch and Moran swung his right to the stomach. Moran whipped his left to the face twice and then shot it to the stomach and the bell ended a round that belonged to the Englishman beyond dispute.

Round 4—Hanlon swung a hard right to the head and followed it with right to the stomach, but the Briton retaliated with two stinging lefts to the jaw and right and left to body. Hanlon hooked his left hard to the body and Moran countered with two lefts to the face. Moran jabbed with left to the face and forced Hanlon against the ropes, landing an awful left stomach punch. Moran started the blood from Hanlon's nose with left jabs and then they exchanged hard lefts to the face. Moran hooked his left to the body and a clinch followed as the bell rang. The round was in favor of Moran by a comfortable margin.

The balance of the fight was practically the same all the way through, there being but two or three rounds in which the honors were even, Moran having from a shade to much the best of the mill all the way through. The record of the closing rounds, however, testify to the gameness of Eddie Hanlon.

Round 18—Hanlon went in with a do or die expression on his face and eyes nearly closed, but fought on. Moran mercilessly banged away at Hanlon's distorted features, but his

blows lacked steam to end the fight. Moran sent left and right to the face, forcing Hanlon to stall. Hanlon fought gamely and at close range Moran put four rights to the kidneys and straight left stabs to the face. Moran whipped in punch after punch and made a chopping block of Hanlon. All Moran.

Round 19—Moran swung a terrific right to the jaw and followed it with two left swings to the same place. Hanlon fought back and sent in some wicked smashes, but the Briton excelling. Moran slipped to the floor and Hanlon helped him to his feet, the crowd cheering wildly. Moran continued his bombardment, landing practically at will. He put a hard left to the stomach and Hanlon winced. Moran peppered away at the jaw, but Hanlon fighting back desperately landed some solid right punches on the stomach. Moran's round.

Round 20—They rushed to the center of the ring, Moran meeting Hanlon with right and left smashes to the jaw. Moran went right after his man, trying desperately for a knockout. They mixed it at a furious pace, Moran having all the better of the fight. Hanlon then waded in and they exchanged punch for punch, Moran excelling. Moran was a bit wild in his anxiety to finish and Hanlon gave him some good body punches that made the Briton wince. They wrestled viciously and the round and fight ended in this manner.

Referee Smith promptly gave the decision to Moran.

RENO, Sept. 30.—Warren W. Miller, formerly vice president of the Nat. C. Goodwin Brokerage company, has resigned his position with the company and George Graham Rice has become vice president and general manager of the company. Mr. Rice is now in full control of the business.

HEARST OUT AFTER TEDDY

Says He will Settle Old Scores When Roosevelt Leaves Presidential Chair

(By Associated Press)
DENVER, Sept. 30.—William R. Hearst, the chairman of the national committee of the Independence party, was the principal speaker at a mass meeting here tonight. Thomas Hisgen, candidate for presidency on the Independence party ticket, and Joseph Buchanan, a prominent leader in the campaign with Hisgen, also spoke. Hearst renewed his charges against Senator Foraker and Governor Haskell and read additional letters and affidavits bearing upon the charges. In support of his claim that Haskell was a member of the Citizens' Alliance at Muskogee, Oklahoma, Hearst read an affidavit dated September 21, 1908, signed by Morgan Carroway of Muskogee, who declared he was secretary of the alliance and received money for dues from the governor, who had frequently talked of the policies to be pursued by the alliance with reference to organized labor.

Hearst paid his respects to President Roosevelt and Bryan, comparing the action of the president in repudiating Senator Foraker with that of Bryan who, he said, was willing to take the responsibility of the governor's connection with the Democratic national committee. Resuming his comment on Roosevelt, Hearst said it was not true he and the president "Have altered our opinions of each other and are now working hand in hand," as the Democrats charge. "I dislike Roosevelt personally and have every reason to dislike him. When I was running for governor of New York Roosevelt sent his present mouthpiece, Tweed's ex-defender, into New York to say what was false about me. If I ever have the opportunity to even up things with Roosevelt after he has ceased to be president I shall do so with satisfaction. But while Roosevelt is president of the United States my attitude toward him is that of any loyal citizen of the United States." Hearst denied he was trying to elect Taft, a statement credited to Bryan.

FLOODS DESTROY IN INDIA

(By Associated Press.)
HYDERBAD (India), Sept. 30.—It is feared that pestilence will follow the floods that have occurred in the Hyderabad and Deccan districts. The water subsided yesterday and the country is strewn with unburied bodies. Many elephants are employed in moving the dead. From the number of dead already found, it is feared that the fatalities will total several thousand. One report places the death list at 10,000. The village of Ghouligooda, on the river Musi, was entirely engulfed in mud.

Certificates of location for sale at the Bonanza office.

A GREAT STORM RAGING

(By Associated Press.)
PRINCE RUPERT (B. C.), Sept. 30.—One of the worst storms that has occurred for months on the northern British Columbia coast has been raging here for days and shows little signs of abating. Many tent houses have been damaged. Lumber piles were stripped of boards which were carried long distances. Over eleven inches of rain has fallen so far during the present month.

LADYSMITH, Wis., Sept. 30.—A gang of robbers early today blew open the safe of the State Bank, taking about \$3000. They shot a policeman in the arm and fired several shots at the Baker hotel to keep anybody from coming out. They then took a handcar and escaped.

Haskell Attacks The President

(By Associated Press.)
GUTHRIE (Okla.), Sept. 30.—Governor Haskell, former treasurer of the Democratic national committee, has written a letter to President Roosevelt in which he says the president's charges against him are without foundation. He challenged an investigation of many cases, and also declared the president's sole motive in bringing suits in the land cases was the Republicanization of 20,000 Indians, who would benefit by the suits. He charges the president with granting a franchise to the Prairie Oil and Gas company before statehood, creating a vested right the state is powerless to interrupt. The franchises were granted at solicitation of Senator Depew and a few days after, according to Harriman, \$260,000 was added to the Republican campaign fund, chiefly subscribed by Standard Oil men.
